Professional Experience

TAG Systems Group

San José, Costa Rica

Software Engineer - Full Time

November 2023 - Present

- Develop new features for a highly transactional system, implementing both major new functionalities and minor quality of life and performance improvements.
- Integrate third-party services to enhance internal application functionality and performance.
- Collaborate with cross-functional teams to design and implement new features for the company's flagship product.
- Conduct code reviews and provide mentorship to junior developers, improving code quality and team productivity.
- Work with several microservices hosted on Google Cloud Platform.

División Ganadera

Heredia, Costa Rica

Software Developer - Part Time

April 2023 - July 2024

- Lead daily stand-ups, sprint reviews, sprint retrospectives, and sprint planning meetings.
- Assist the product owner in managing the product backlog, ensuring requirements are clear and well-defined.
- Make architectural and design decisions for software projects, ensuring the most effective approach was taken.
- Develop software solutions using various programming languages, ensuring efficient and maintainable code.
- Build and maintain company infrastructure hosted on AWS.

CITI Bank Heredia, Costa Rica

Applications Support Analyst

December 2022 - April 2023

- Monitored software applications, ensuring they functioned correctly and efficiently.
- Worked closely with IT teams, developers, and other stakeholders to ensure the smooth functioning of the applications.
- Suggested enhancements or improvements to the application based on user feedback and monitoring data.

Conceptos CR Heredia, Costa Rica

Network Administrator

August 2022 - December 2022

- Planned, designed, and implemented local and wide-area networks (LANs and WANs).
- Implemented and managed firewalls, VPNs, and other security protocols to safeguard the network against threats.
- Set up user accounts, permissions, and passwords, ensuring that only authorized individuals have network access.
